ROOFING
SOLUTIONS

BEAUTIFUL STRONG LONG-LASTING

Unified Steel® Stone Coated Roofing offers five distinct profiles that will enhance the curb appeal and value of any home while **providing durability, performance and protection that will last.**

50-Year Limited Warranty*

Fire Resistant* Materials

Hail Stone Penetration Warranty*

Lightweight 1.5-lbs/sq-ft.

120 mph Wind Warranty*

Energy-Efficient Above-Sheathing Ventilation*

Unified Steel roofing systems exceed FORTIFIED™ Roof standards for hail impact by achieving UL 2218 Class 4 impact resistance and meeting the Very Severe Hail (VSH) standard—the highest level of protection recognized by IBHS. It is the only residential roofing product to meet this rigorous VSH standard, providing unmatched durability against extreme hail events.

Hail Impact Tested Roofing

All Unified Steel panels provide Class 4 Hail Impact Resistant¹ rated performance—the best rating available for roofing products. Warranted for hail up to 2-1/2 inches in diameter and winds up to 120 mph, Unified Steel roof systems protects your home while adding peace of mind.²

Unified Steel panels are also listed with QAI Laboratories, a reputable third-party evaluator of building products qualified for impact rating of roofing systems, as shown in [QAI Evaluation Report CERus-1008](#), available under Unified Steel Resources.

¹ Refer to the Unified Steel [Technical Bulletin - Very Severe Hail \(VSH\)](#) under Resources.

² For product warranty details, please visit [Unified Steel Product Warranty](#) on our website. The warranty found there is the sole warranty applicable to Unified Steel roofing products.

Beautifully Efficient

Whatever the style, color or finish of your current roof, a Unified Steel® stone coated roof can further enhance the appearance of your home. Whether you want the look of shingle, clay tile, cedar shake or slate, you can select a Unified Steel roof that will highlight the beauty and increase the efficiency of your home. Several Cool Roof Rated* products offered by Unified Steel help improve the energy efficiency by reflecting sunlight and heat away from your roof. Unified Steel roof will look beautiful for decades to come and requires little to no maintenance to provide a lasting improvement to your home's curb appeal.

*Cool Roof Rating Council (CRRC) measures the "coolness" of a roof by determining a roof's solar reflectance (SR) and thermal emittance (TE). Both properties are rated on a scale from 0 to 1, where 1 is the most reflective or emissive. The CRRC measures these two properties for roofing products, both for the product's initial values and after three years of weather exposure. CRRC rated products help reduce the heat island effect found in urban areas and in general, increases the overall energy efficiency of the building. For more information, please visit our website Cool Roof resources page: WestlakeRoyalBuildingProducts.com/cool-roofing

Attic Temperature*

Why Steel?

Energy-Efficient

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Unified Steel® Stone Coated Roof System with Above Sheathing Ventilation (ASV) to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

* Attic Heat Transfer test available in [Technical Bulletin - Cool Roofs](#) at [WeatlakeRoyalBuildingProducts/Roofing](#)

Elevated Batten System® (EBS) Battens

Continuous Ridge Vent

Above-Sheathing Ventilation (ASV)

Hot air always rises and creates a natural convection effect. This allows the heated air to be exhausted through ventilation, which causes a continuous airflow across the roof deck. The result is a cooler attic and living space in the home. No matter the install method, Batten with Elevated Batten System® (EBS) battens or Direct-to-Deck, a Unified Steel Stone Coated roof with ASV can help provide energy savings compared to asphalt shingles.

The Oak Ridge National Laboratory (ORNL) conducted a 12-month study on the effects of high IR pigments vs. metal roofs installed with an airspace*. The study showed that EBS or ASV can reduce heat flow into a building by nearly 30%. This can lead to an increase in year-round energy efficiency by reducing heat gains during the summer and heat losses during the winter. These dramatic results prove ASV is just as important to achieving energy efficiency as reflective roofs.

Hot air rises and is vented off the roof.

Visualize

Picture your new roof with Unified Steel™ Inspiration house photo gallery on our website. Design your home with your dream roof by using our [Dream Home Visualizer](#). Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Unified Steel™ makes it easy to buy with confidence.

Planning Made Easy

Take your project planning to the next level with Unified Steel® [Material List Generator](#). Following a simple process you can obtain an instant list of materials and quantities needed to fit your roofing project.

Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

Online Ordering

Manage your orders through [myWestlakeRoyal](#), a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

About Westlake Royal Building Product™ | Roofing Solutions

The Roofing Solutions portfolio from Westlake Royal Building Products™ is a recognized, national leader in durable and sustainable clay, composite, concrete, and steel roof systems. Encompassing a suite of materials that provide strength, versatility, and refinement, our portfolio includes US Tile® Clay Roofing Products, Newpoint™ Concrete Roof Tile, Unified Steel® Stone Coated Roofing, DaVinci® Roofscapes, and Westlake Royal™ Roofing Components, all designed to deliver a higher standard of roof installation, performance, and design.

BE BOUNDLESS™

THE PRODUCTS TO DO EVERYTHING. THE POWER TO DO EVEN MORE.

We're answering "what ifs" on a whole new level—from the solutions we create to the dreams we build. We have the tools and technology to tell design stories on a bigger scale and on a more personal level. There are no limits to how far we innovate, how deeply we express, how strongly we commit and how boldly we go.

Together let's Be Boundless™.
